Example of How Membership Dues are Divided

State Dues are used to support activities, provide staffing and conduct programs around the state. Consumer education, issue advocacy and member publications are services that are also funded with state dues.

County Dues are used to support activities in your local county. These activities range from educational workshops, newsletters, agriculture promotion events and social activities for members.

Accidental Death Policy is accidental death insurance for the member, their spouse and children. It increases in value for the member and spouse with each consecutive year of membership up to \$3,500.
