# 102<sup>nd</sup> Annual Meeting

YFA Conference and WFBF Annual Meeting attendees,

We are looking forward to seeing you at the 2021 YFA Conference & WFBF Annual Meeting on December 3-6, 2021.

In preparation for the meeting, we want to provide everyone an update on COVID protocols and masking. First and foremost, we recognize that not everyone has the same comfort level when attending a large event such as this one, and that we all must bear personal responsibility for the choices we make regarding our own personal health and safety.

This year we have arranged for larger space to hold our meal functions, banquet programs, and trade show. While this added space will make it easier for members to spread out, we want you to be aware that maintaining a six-foot minimum distance at all times may be challenging in some areas of the facility.

For buffet-style meals, we have arranged for Kalahari staff to serve you as you go through the line to minimize risk of handling common serving utensils. In addition, sanitizer stations will be located throughout the meeting facility for your convenience.

Currently there is not a mask requirement for Sauk County, Wisconsin Dells nor at the Kalahari Resort & Conference Center. As a result, masks are not required for those attending these WFBF events. We encourage you to plan accordingly.

As always, we look forward to a safe, enjoyable and productive meeting and we ask that you be fully aware of the circumstances and plan accordingly to keep yourself safe during these unusual times.

See you soon!
